Evakool® Polyal-ISO SPF is used which is a high density refrigeration foam. It has been specially developed by the manufacturers and Evakool and it is not available to anyone else. The weather will not trouble this fridge as at 43oC this fridge still runs at -19oC which is a 63oC difference (independent test done on RF47).  
Powered by Danfoss which is considered to be the best 12/24V compressor in the world.  
Designed for trouble free "off road" performance.  
Operates as a fridge & a freezer in the same cabinet. A movable divider allows
